SEDALIA, MISSOURI, WEDNESDAY JULY 5, 1893.

PRICE, FIVE CENTS.

THE FLOODS CAME.

AND THE MISSOURI PACIFIC WAS KNOCKED OUT.

WASHOUTS CAUSE DELAYS.

A Waterspout Near Warrensburg Washes Out 1,500 Feet of Track—The Branch Suffers, Too.

The Missouri Pacific was badly knocked out to-day by reason of the heavy rains that fell last night and early this morning, and things presented an exceedingly lively appearance at the union depot all of the forenoon.

East-bound passenger train No. 4, due here at 11:55 o'clock last night, did not arrive until 4 o'clock this morning, and this, too, after Conductor McClure, the train crew and passengers had undergone an exciting experience two and one-half miles east of Warrensburg.

A WATER SPOUT.

While it rained scarcely any in Sedalia during the night, it came down in torrents west of here, and especially so in the vicinity of Warrensburg, where a water spout deluged the earth between 10 and 11 o'clock. The whole country was flooded two miles east of the town, and Bear creek was a raging river.

Train No. 4 reached Warrensburg twenty minutes late, and then pulled out for Sedalia. Two miles east of the Quarry City the tracks were covered with water, which necessitated slow running, and it was well that such was the case.

One-half mile further east the rails were found to be out of line, and an instant later a mail car was lurched off of its trucks. The train was promptly stopped and the train crew set to work to right things, but in the meantime the water kept rising until the roadbed was washed out from beneath the two Pullman sleepers on the rear of the train. The cars sank down in the mud and water even with their bottoms, and it was realized that it would require several hours' time to build up the roadbed so that the journey could be resumed with the sleepers.

A TRANSFER MADE.

The passengers in the Pullmans were transferred to the forward part of the train, and about 3 o'clock the engine and seven cars started for Sedalia, leaving the two empty Pullmans in the mud and water.

The train arrived here at 4 o'clock, and twenty-five minutes later resumed its journey to St. Louis. Conductor McClure was wet to the skin as the result of his experience, and stated that he had never before seen so much damage wrought by water in so short a space of time.

TRACK WASHED OUT.

About fifteen hundred feet of track was washed out, and the fields on either side were covered with water. Shocks of wheat were carried away on many fields, and huge logs swept down the stream like matches.

The wrecking train left here a few minutes after 4 o'clock, in charge of Superintendent Mead Stilwell, and on arriving there he wired back that it would require several hours' time to repair the break, as it was still raining, and it would be impossible to build a new track until the rain ceased.

TRAINS LAID OUT.

Train No. 3, from St. Louis, arrived here on time at 3 o'clock a. m., in charge of Conductor Al Marsh, who received instructions to lay over here until the track was cleared.

Train No. 9 came in a few minutes after 5 o'clock, a little late, and went out over the Lexington branch almost on time.

The fast mail, No. 7, came in "on the dot," in charge of Conductor Ed Allison, and the latter gentleman proceeded to entertain himself by swapping yarns with Conductor Marsh until such time as the break should be repaired.

ON THE BRANCH, TOO.

In the meantime, a wire was received at Missouri Pacific headquarters here that Davis creek was on the rampage, and in consequence there was a washout of 200 yards near Aullville. Train No. 193, that had arrived from St. Louis as No. 9 and gone out over the Lexington branch, had passed before the break occurred, however; but the incoming train, in charge

of Conductor Lewis, was laid out until the break was repaired by a crew and material sent from Lexington.

THE TRAINS MOVE.

At 1:30 o'clock this afternoon trains No. 3 and 7 pulled out for the west, it having been learned that the track would be cleared so that trains could pass over it by 3 o'clock. Nos. 6 and 2 from Kansas City are expected to arrive in Sedalia a little before 4 o'clock.

The washout on the Lexington branch is worse than first reported and will not be repaired until some time to-morrow forenoon. The branch train will leave here on time this afternoon and transfer its passengers at the scene of the washout and then return to Sedalia. Conductor Lewis will not reach here until to-morrow, as he will carry the transferred passengers to Kansas City.

ON THE "KATY."

The "Katy" did not fare so badly. Superintendent W. B. Lyons was seen and stated that information received at headquarters showed that the tracks were all right both north and south. Much water fell along the line of the road, but he did not apprehend that a single train would be badly delayed.

In Sedalia, the rain began falling about 5 a. m. and kept it up almost without intermission until nearly 9 o'clock. The streets and gutters were flooded, as were a number of cellars, but no serious damage was reported.

A Fine Programme.

In addition to the McFadden-Asbell wrestling match to-morrow night, there will be a highly interesting programme in which local athletes will take part. First of these comes a wrestling bout between Baptiste, of St. Louis, and Harrison, of Sedalia. The former is a Greek and is a wonderful athlete; the latter is a well known in the city to need words of explanation, being beyond a doubt one of the best men in the country for his age. There will be half a dozen boxing events in which Ed. Gray, Emil Dorn, Billy Wilson, George Wright, Ed Bauer, Henry Ripkin and others will take part.

A Prosperous Institution.

In this issue will be found the statement of the financial condition of the old reliable Missouri Trust company. The statement shows a degree of prosperity that is highly gratifying to the management and stockholders and encouraging to those who are interested in the resources of Missouri. The wise, conservative management of this company is bearing fruit and has caused it to be recognized as one of the safest institutions in the state. Sedalia is proud of the Missouri Trust, and well does it deserve the splendid reputation it enjoys. But read the advertisement, for the figures are more eloquent than words.

Stopped by Lightning.

Owing to the severity of the electrical storm this morning the electric cars did not start at the usual time. The damage caused to the cars by lightning amounts to no small sum in the course of years, and there is no way of preventing it but to stop the cars during the storm.

Moved Its Office.

The Sedalia Gas Light company has moved its office from 309 Ohio street to Fleischmann's drug store, where it will be from the 5th to the 6th of each month, thus enabling the people to take advantage of the discount.

Released From Jail.

Sallie Goodwin, a "lady of color," was released from jail to-day, after she had boarded at the county's expense six days on a conviction of having disturbed the peace.

AT THE COURTHOUSE.

A BRILLIANT ORATOR ON THE SILVER QUESTION.

PATTERSON, OF DENVER.

H. L. Loucks Will Also Speak—No Admittance Will be Charged—All Are Invited.

Farmers' Alliance day at Association park was not carried out to-day as announced by the programme, the inclement weather and delayed trains interfering to such an extent that it was not deemed advisable to hold the meeting at that time. Instead, the speaking will take place at the court house at 8 o'clock this evening.

The principal speaker of the occasion will be Hon. T. M. Patterson, the brilliant editor and proprietor of the Rocky Mountain News, of Denver, who will address his audience upon free coinage and the silver question in general. Mr. Patterson comes at the earnest request of Senator Stewart, of Nevada, who was unexpectedly called to the Republic of Mexico. Editor Patterson is one of the brainiest men in the entire west and as a speaker is forcible and eloquent. Few men are more capable than he of dealing with the silver question.

He will be followed by Hon. H. L. Loucks, president of the National Farmers' Alliance and Industrial Union of America. He will deal with the issues of the Farmers' alliance and is one of the most prominent men in the movement.

Speaking will commence at 8 o'clock. No admittance will be charged and a cordial invitation is extended to all.

THIS IS CHOLERA YEAR.

In order to prevent CHOLERA and to keep the system clear from MALARIA use Wood's Celebrated Cathartic Pills. These pills are also an excellent remedy for sallow complexion, skin diseases. Nothing can excel them for a blood purifier. These pills have a world-wide reputation for Indigestion, Sick Headache, pain in the head, side or back and Liver Complaint. Try one box and you will be convinced. Over 300,000 boxes are now being sold annually.

Wood's Magic Oil or King of Pain.

An external and internal remedy, has no equal for the cure of Cholera, Cramps, Diarrhea, Sprains, Bruises, etc. These remedies should be kept constantly on hand and used liberally when symptoms of the above diseases make their appearance. These remedies can be purchased at the Opera House Drugstore and at most all first-class drugstores.

high noon to-day. The contracting parties were R. J. McMillan, formerly of the M. & T. offices here, but now with the Cotton Belt in St. Louis, and Miss Lula F., the accomplished daughter of Mr. and Mrs. J. P. Guerrant. The ceremony was performed at the home of the bride's parents, No. 720 West Third street, Rev. Ryland officiating, and the happy young couple will leave for St. Louis on the first train. The DEMOCRAT's heartiest congratulations are extended.

Gladdened Her Heart.

The Kansas City delegation of cyclists enjoyed themselves this morning while waiting for the train by parading the street, giving the lock step to perfection. The boys gladdened the heart of the blind woman, familiar to pedestrians on Ohio street, by lining up and each dropping a dime into her cup as they passed by.

Will Return To-morrow.

Harry Espenschied, who came home to spend the Fourth, will return to Chicago to-morrow.

Off for Chicago.

Dr. T. P. McCluney will leave to-night for Chicago, and will chaperone Miss Paff, Miss Cootsie Miles and Miss Flo Mackey.

THE DEMOCRAT,
Sedalia, Mo.

OFFICE: 307 Ohio St. Telephone 232.

Official Paper of the City of Sedalia.

THE DEMOCRAT is a daily paper.

THE wheelmen were well pleased with Sedalia.

THE Fourth of July, with the small boy, always runs to fireworks.

THE protracted drought in Europe should make a good market for American food products.

JAY GOULD paid personal taxes on \$500,000. His estate pays personal taxes on \$10,000,000.

ARIZONA will again ask to be admitted to the union when congress meets, and the request should be granted.

It takes a spell of weather like this to demonstrate the great advantage of paved streets. We need more of them.

Now the fourth of July has been celebrated, let the campaign against bad sidewalks be pushed more energetically than ever.

THE first of July was universally regarded as a critical period in business circles. It has passed without disaster and we may now look for better times.

WORK on the government building at Springfield has been temporarily suspended. The cause of the delay is said to be the failure of a sub-contractor to pay his men.

THE local committee of wheelmen spared neither pains, labor nor expense in providing for the comfort and entertainment of their guests, but the committee had no control of the weather.

THE DEMOCRAT went to press a little early yesterday, thus giving its readers all the important news and at the same time giving the printers, reporters and other attaches a holiday.

SILVER is either a money metal or it is not—hence it is entitled to free coinage or else, no pretense of recognizing it should be made. We have had enough of humbug. Let's settle the question.

THE United States government has no more business buying silver than it has buying wheat. If silver is a money metal it should be coined. If it is not fit to coin as money it should sell on the market like any other commodity.

THE metropolitan papers to-day contained the usual long list of accidents incident to jollifications. Eyes, hands, legs and arms suffered and in some cases the wounds have proved fatal. But still the Fourth of July is a great day.

THE enterprising Springfield Democrat celebrates the glorious Fourth by getting up a comprehensive, well written review of the business of the city. It makes a fine showing for the Queen of the Ozarks and is highly creditable to the paper.

JUST bear in mind that the Sherman silver purchase bill is neither a free coinage measure nor democratic in principle. It is as vicious now as it was when free coinage democrats were denouncing it upon the floor of congress and upon the hustings.

THE nation's birthday was celebrated everywhere with the usual enthusiasm yesterday, and it is clearly to be seen that while the

American people may differ among themselves on questions of policy, they are proud of their country and their institutions.

THE "green goods" men are at work in this section again. The New York office is flooding the city with letters offering their "goods" for sale, but the swindle has been exposed so often that no intelligent man, however great a rascal he may be, can be caught.

OUR goldbug friends tell us that they demonetized silver in 1873 because the silver dollar was worth more as bullion than the gold dollar. If that is true they should now demonetize gold, for the relation of the two metals has changed and it is now gold that is the most sought for and scarcest.

PEOPLE very properly look upon the increased earnings of the railroads as indicating that the country is prosperous in spite of the hard times. Crops have been good and are promising for this year, and, gold or no gold, the production of wealth goes right along. It is the uncertainty that discourages business operations.

In his admirable speech at the Tammany Hall celebration on the Fourth, Hon. Champ Clark, sounded the following keynote: "In 1896 the west will give you for the democratic presidential candidate a trans-mississippi man on a Missouri platform." It will be a glorious day for the American people when the prediction comes true.

In answer to the question, "What has become of the Springfield Democrat's new movement to build a north and south railroad," that paper says: "Up to the hour of going to press the new enterprise has not been sued for a physician's bill, nor had an assignee been called to carry up the frazzled ends of the work. The new road will be along before congress relieves the financial stringency of the country. The Sedalia promoters will not be in it, but the road will be built. You'll see."

PRESIDENT CLEVELAND's duty is to transmit his views to congress by message. That work having been accomplished, it then becomes his duty to remember that the legislative branch of the government is entirely independent of the executive, and he should beware of those false friends who seek to bulldoze and terrorize with his name the chosen representatives of the people. Federal patronage should not be used either to buy votes or punish those whose convictions on public questions run counter to the president's notions.

FARMERS in this country are interested in the alarming scarcity of the fodder crop in Germany. Late dispatches give many facts tending to show the great demand for hay, oats and corn. The merchants of Stettin, a considerable seaport in Prussia, have chartered four vessels to transport baled hay from Canada, and in consequence of the drouth the tariff on oats, hay and corn will probably be suspended. There is great distress among the farmers in the Rhine section. An instance is given of where a poor peasant was trying to plow with a team that had not been fed for four days. The beasts fell down from exhaustion and the discouraged owner committed suicide. This state of affairs can hardly fail to increase prices in this country.

"Royal Ruby" Port Wine. If you are reduced in vitality or strength by illness or any other cause, we recommend the use of this Old Port Wine, the very blood of the grape. A grand tonic for nursing mothers, and those reduced by wasting disease. It creates strength; improves the appetite; nature's own remedy, much preferable to drugs; guaranteed absolutely pure and over five years of age. Young wine ordinarily sold is not fit for to use. Insist on having this standard brand; it costs no more. \$1 in quart bottles, pints 60 cts. Royal Wine Co. For sale by A. S. McGowan.

RACES POSTPONED.

THE BICYCLISTS WILL MEET ON JULY 22.

THE RACERS WILL RETURN.

The Banquet at Siche's Last Night—Heavy Rains Seriously Interfere.

After arranging for what would have been the most successful bicycle racing event ever held in the state, it was found necessary to abandon the races as announced for yesterday afternoon. The members of the Missouri division of the L. A. W., did the handsome thing in turning out in large numbers to the eighth annual meet, but at the last hour the weather turned against them and the earth was deluged with water.

Yesterday morning it was decided that in case the rain ceased during the afternoon the races would be held. At 1:30 o'clock the wheelmen formed in line and, headed by the Sedalia Military band, paraded through the principal streets of the city. The track was inspected by the committee of arrangements and a novel method was used to put it in condition. Kerosene was poured upon the track and ignited, with the intention of drying it with the heat. The kerosene did not work as successfully as it was hoped for, and nothing could be done. Handbills were scattered, announcing the races for this afternoon, but to-day was far worse than yesterday.

The races have now been definitely arranged for Saturday, July 22. All of the racing men of the state will return and prepare to make the event one that will long be remembered in the bicycle history of the state. The rivalry is very great, as the prizes are by far the most valuable and costly of any that have ever before been offered. It goes without saying that the attendance will be such as to make the Sedalia cyclists feel that their work has not been in vain. They deserve unbounded praise for the faultless manner in which they have done their work. Not a thing was left undone for the comfort and entertainment of their guests and the visitors, one and all, speak in the warmest and most complimentary terms of the city. The Sedalia cyclists have been put to a large expense and the citizens should show their appreciation by filling the grand stand to overflowing on the day of the races.

The annual banquet at Siche's last evening was a pronounced success. Covers were spread for about 100 guests. Chief Consul Robert Holm, of St. Louis, was toastmaster. The following toasts were given, and in each instance the speaker was very happy in his remarks: "Sedalia," Mayor Stevens; "L. A. W.," E. S. Barnes; "S. C. T. A.," R. H. Gray. The menu was as follows:

Were Near Centerville. The latest report from the M. K. & T. surveying corps, engaged in running a line from Holden to Boonville, stated that the party was near Centerville.

Back From the Fair. Cashier Will Powell, of the Citizens' National, and Will Sprecher returned this morning from the World's fair. They say that no

idea of the magnitude of the fair can be obtained from newspaper accounts, and that nothing but a visit to the fair will enable a person to conceive of what the country has done. Mr. Powell says that the Moorish palace in the midway plaine was one of the most beautiful sights he beheld.

"Americanite" cigars are the best.

Roll Ten Pins. The bowling alley at Forest park is now open. Go out in the evening and have a game. Last car leaves the park for the city at 10:30 p. m.

The "Katy" Intact. The heavy rains have in no wise discommoded traffic on the M., K. & T. Its trains were on time this morning with the exception of the passenger from the south which was belated in Texas.

Wanted—To Trade. A No. 1 Kimball organ for a double-seated vehicle, surrey preferred, or a good, gentle mare. Apply at this office.

Police Court. The surplus enthusiasm found vent yesterday in exploding fire works, judging from the small dock-et in the police court this morning. Disturbances were rare on the streets.

Jim Brown was fined \$7 and costs for disturbing the peace of "Big Alec" Rollins.

John Myatt was enticed too far by seductive fourth of July whisky and was fined \$5.

"Quick Meal" gasoline stoves with cast iron burner cap, last forever, only at Hoffman Bros.

The Springfield Track. A. Z. Souther who represented Springfield and secured for that city the next meet of the state cyclers, says that Springfield proposes to do her best for the wheelmen. A track a quarter of a mile in length will be constructed of either cinders and clay or asphalt, thus enabling the wheelmen to race in any kind of weather.

Crystal Ice Co. The old reliable is in the market with two years' supply of the finest ice ever harvested in this section. Prompt service guaranteed. Many thanks for past favors. No one can complain of quality or prices. We can take care of you. Leave orders at D. H. Smith's store. IRA HINSDALE, President.

Damaged the Wheat. Circuit Clerk Tom Fowler says that the rain of yesterday and to-day will damage the wheat crop to a considerable extent. The wheat is now very ripe and the immense amount of rain beat it to the ground. Much of the wheat in Pettis county, however, had been harvested.

We make a specialty of prescription work and we continue our specialty to everything first-class in our line. Our drug store is without doubt the finest in Central Missouri. Come to see us.

SERVANT & CRONHARDT. Successors to Ott Bros. 508 Ohio St. Branch store at Green Ridge.

Mud Kne Deep. Gee' whiz, but didn't it pour down! And you ought to have seen the situation out on West Fifth street this morning, where Messrs. Olmsted & Prentice have had a force of men excavating for several days past preparatory to paving the street. It is no exaggeration to say that milk wagons sank into the hubs, while boating was excellent at several points along the thoroughfare. Is it any wonder that the property owners are demanding that Mr. Church, the contractor, get a move on himself?

For Sale. Five shares of stock in the Overstreet Pharmacal Co., at a discount. Apply to E. J. Smith, attorney-at-law, Ilgenfritz building, room 27.

Dr. L. Bremer, of St. Louis, Mo., in an article published in the April number of the Bacteriological World, at Battle Creek, Mich., says:

"Whoever has seen with what utter disregard to the simplest hygienic precautions that natural ice is gathered, must be astonished, if he be familiar with the mental teachings of bacteriology, that epidemic diseases are not more frequent. I am sure that to the tumbler and the ice box are traceable many a case of typhoid and diphtheria. The ice box especially offers the greatest opportunities for food contamination."

FOOLED BY JONES.

THE EVANGELIST MISTAKEN FOR A WHEELMAN.

ERROR OF A BAGGAGEMAN.

What The Reverend Gentleman Has to Say of Sedalia as a Point For the Chautauqua.

Sam Jones left on Missouri Pacific train No. 2, at 12:50 yesterday afternoon, for Ruston, Louisiana, where he lectures before the state Chautauqua Thursday and Friday, the 6th and 7th.

"This weather has knocked me out," remarked Mr. Jones, as he passed his gipsack over to Station Baggage Agent Wright, with the request that it be checked.

Mr. Wright was not acquainted with the reverend Sam, but surmised he was one of the wheelmen whom the rain had interfered with, so asked.

"What club do you belong to, sir?"

"I'm no cyclist," answered Sam; "I'm the other fellow."

By this time Mr. Wright had guessed the identity of his patron and an attempt at an apology made him solid with Sam, who looked upon it as a pretty good joke that he had been mistaken for a wheelman.

"Has the first Chautauqua meeting at Sedalia been a success, Mr. Jones?" asked a DEMOCRAT reporter, just prior to the renowned evangelist entering his car.

"In some respects it has and in others it has not. Sedalia has a good many things in her favor as a point for the Chautauqua, but in the present meeting she has had some drawbacks.

"If your people had gone to work and erected a fine pavilion in your beautiful park it would have proved quite an attraction. The old patched tent that was utilized gave the Chautauqua a black eye to start with. The proper thing to do, no matter what you enter upon, is to get started right and then keep right.

"Sedalia is unfortunate in not being situated on a water course, or at least in not having springs, but the central location and excellent railroad facilities makes up for the shortcoming in a measure.

"Now, Ruston, Louisiana, to which point I am going, is only a little village, but two miles from the town they have magnificent mineral springs, and the Chautauqua will hold its meetings in a grove near the springs. If Sedalia, with her excellent railway facilities, had such springs as are to be found at Pertle Springs or Sweet Springs, they wouldn't have any trouble in drawing Chautauqua workers from all over the state to attend the annual meetings."

In private conversation Mr. Jones is an exceedingly pleasant gentleman to talk to, and the DEMOCRAT hopes he may some day be called upon to fill a return engagement in Sedalia.

"Quick Meal," improved and warranted indestructible. Special prices this week at Hoffman Bros.

HONEST WORK.

Great care taken in extraction of teeth, either by plain pull or gas. No misleading, so-called new methods. I'll not use deceptive methods for the "almighty dollar," though the people may demand it. "Hereafter I'll buy nothing but the S. S. White tooth, THE BEST." All artificial work guaranteed as the best possible and hope my best efforts will be appreciated by the people of Sedalia.

\$100.00 IN CASH PREMIUMS.
Don't forget to bake a loaf of bread; in so doing you help out a noble enterprise, the Charity Hospital fund. Every dime helps to swell the Charity hospital fund. If you have not a kindly feeling toward the No. 8 flour you can use any flour that you wish. However, none other than the No. 8 can compete for the prizes, and must be so stated on the day of delivery.
Every one that has a drop of the milk of human kindness coursing through their veins should not forget the hospital fund and send us a loaf of bread.
Yours very respectfully,
B. S. REMBAUGH.

A Lady's Dress On Fire.
While returning from the park, about 10 o'clock last night, Mrs. Homer Green, who resides south of town a few miles, had her dress ignited from the stub of a cigar that was lying upon the car floor, and there was considerable excitement for a short time. With rare pres-

ence of mind the lady seized the garment in her hands, and, by a vigorous rubbing, soon had the fire extinguished, but not until her fingers and the palms of her hands had been slightly burned.

For Sale.

Dixon is Angry.

W. O. B. Dixon is disgusted because of the notoriety he has been given in connection with the Prospect street railway muddle, and now says he will fight it to the bitter end. He claims that if he had been treated right he might have withdrawn his opposition; but now that so much abuse has been heaped upon him the contemplated railway shall never be built in front of his residence until he is defeated in the courts.

Good goods and low prices. See for yourselves this week at Hoffman Bros., 305 Ohio St.

Seedless Blackberries.

I have twelve acres of this variety now ripe. All persons wishing them to can should send in orders at once, as I was unable to fill all my orders last year, owing to the great demand for the "SEEDLESS BERRY." I fill all orders in their turn, and as promptly as possible. I bring fresh berries only, and all boxes well filled. All I ask is that you try them, as those who have once canned them will use no other. I make special figures for canning. Address J. B. ROE, postoffice box 201, Sedalia, Mo., and your order will receive prompt attention.

Dr. Swallow, of Valley Falls, Kas., president of the Kansas state board of health and chief physician for the Modern Woodmen of the World, was one of the Missouri Pacific belated passengers that stopped over in Sedalia to-day.

More Men Laid Off.

One hundred and fifty-three men employed in the wood and water service department of the shops of the Santa Fe road at Topeka were laid off yesterday afternoon. This makes about 300 men who have been laid off there by the Santa Fe system since the order to cut down expenses went into effect last week. The discharged men are all unmarried.

The road furnishes transportation to all who wish to go elsewhere to look for work and many have taken advantage of the offer.

Plenty of Passengers.

The "Katy" flyer had seventy passengers from Texas Sunday who were ticketed through to Chicago.

Knocked Out a Horse's Eye.

A serious accident occurred to a horse driven by Riley Wells, the hackman, on Ohio street last evening. While passing in front of Rose & Hambright's, a giant firecracker of immense size was thrown into the air by one of a crowd standing on the sidewalk. The firecracker exploded near the horses head and a large piece of the cracker struck the animal over the right eye, tearing away the flesh and allowing the eye to fall from its socket. The horse fell to its knees as if shot and groaned with pain. The eye was totally destroyed. Mr. Wells states that he will make things lively for the party who threw the firecracker.

A Will Probated

The will of the late Jos. Schrieber, of Georgetown, was admitted to probate by Judge Hoy this morning. The testator bequeaths the home place and all the household effects to the widow during life, and at her death it is to go to a son, John Henry. To a daughter, Elizabeth Troth, 40 acres of land in Pettis county are bequeathed; and to two other sons, Joseph and Leander, \$5 each. John Henry is named as executor.

AN UGLY WEAPON.

The Manufacture of the Gimlet Knife Forbidden by Law.

The gimlet knife is a weapon so dangerous that its manufacture is forbidden by law. This is one of the smallest fighting knives used by any people of the earth and one of the most deadly. In length this knife is hardly longer than a long gimlet, so that it can readily be concealed inside the waistband of the trousers. The handle is not set on a parallel with the blade, as in an ordinary knife, but at right angles, like that of a gimlet, hence the name.

This handle is grasped with the blade between the second and third fingers, the upper part of the blade being drawn down to a shank, so as to prevent cutting the fingers when the blade is so held. The blade when in position represents merely an extension of the axis of the arm, and is not held at right angles with the arm, as the villain in the play holds his knife.

The blade is made of the best razor steel, is double-edged for the lower two-thirds of its length and is as keen as a razor. It is not dagger pointed, but has the stronger formation of a rounding point. The blade is short, but long enough to inflict a fatal wound, and so strong and keen that it will divide a rib under a powerful blow, or cut through any garment like so much paper.

The peculiar position of the handle leaves nothing for an adversary to grasp at except the blade, so that it is almost impossible for the wielder of the knife to be disarmed, the more so as the handle curves in at the end, giving the fingers a better hold upon it.

SAVINGS BANKS.

To Be Introduced Into the Boston Public Schools Very Shortly.

It is proposed to introduce "stamp saving banks" in the Boston public schools. From various offices colored stamps of six denominations and stamp cards will be obtained. To each person wishing to become a depositor the local treasurer gives a stamp card and sells as many stamps as he has money for. These stamps must be pasted on a card. The card when full will probably contain about \$5.

As soon as the child has stamps for that sum the money is taken and deposited for him in some savings bank that he may designate. The \$5 once deposited he begins again, and the small sum grows to a larger one under his hands. If he wishes to withdraw he presents his card and draws all that is on it. Then if he has more money than he cares to use he calls for another card and redeposits the balance.

By this method all book-keeping is avoided, the child always knows just how much he has, and the local treasurer can tell in the same manner. If the child loses the card, however, he loses the money.

SILVER'S FRIENDS.

A Convention Called to Meet in Chicago.

WASHINGTON, JULY 5.—The American Bimetallic League has issued a call for a national convention of silver men to meet in Chicago on August 1st.

The call contains this declaration:

"A concerted purpose is manifest to seize upon the present opportunity to destroy silver as money and to establish finally and forever the single gold standard and at one stroke to change all debts to gold debts, with a never ending rise of gold and fall of prices.

A financial disturbance, largely artificial and needless, has been created as an object lesson and falsely attributed to the present silver law, in order out of it to create a manifestation of public sentiment under cover of which the greater crime of overthrowing the money of the constitution and establishing the single gold standard may be consummated.

As a part of the same great conspiracy the mints of India have been closed and the shock is felt around the world. Congress has been called to meet in extra session on August 7. If at this session the money standard of the constitution is overthrown and the single gold standard is finally established to be extended over the world, an economic revolution will have been inaugurated more disastrous to the welfare of mankind, and especially to the producing and laboring classes, than any in the history of the world."

He is Merely Hiding Out to Get a Little Rest.

BUZZARD'S BAY, Mass., July 5.—That the people may not become uneasy at the nonarrival of President Cleveland at Gray Gables, Mrs. Cleveland has telephoned the newspapers here that she had received advices from the president that he was in good health and may not reach here for two or three days, yet he may arrive at any time.

It is understood that the yacht Oneida is at anchor between New London and Buzzard's Bay. A dense fog is on the water.

COUP D'ETAT BY THE POPE.

Mgr. Satolli Says the Church of Russia Is to Come Under Control of the Vatican.

ST. PAUL, Minn., July 5.—A *Pioneer Press* special from Tocoma says:

"Mgr. Satolli states that there are pending diplomatic negotiations to bring the Greek church of Russia, now under the personal control of the Czar, into the keeping of the Vatican. Father O'Gorman was the authority. He said: 'I speak for Mgr. Satolli. I have talked the whole matter over with him and you can say that he says it through me, his interpreter.

Father O'Gorman is professor of ecclesiastical history in the Catholic university in Washington. Churchmen take it for granted that if the czar is to place his state church under the control of Rome it is in the interest of Leo's hope to effect the disarmament of the great nations of the world, thus securing ultimate universal peace and the arbitration of international quarrels.

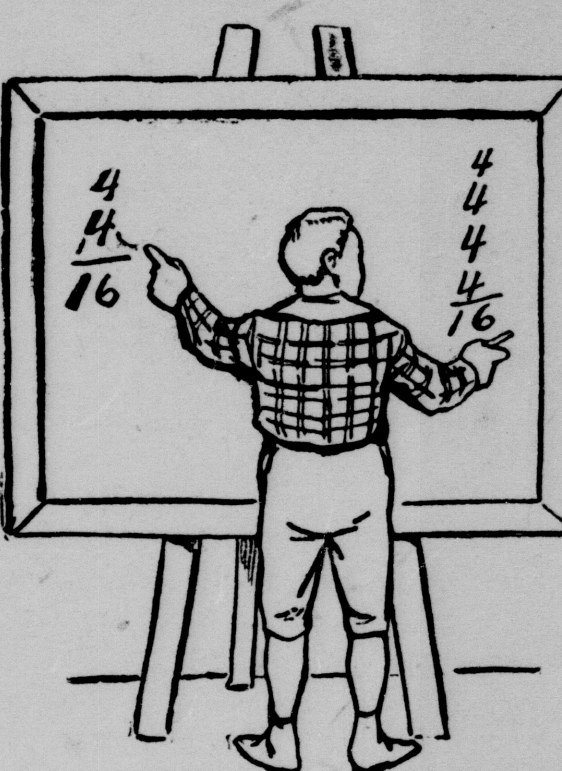

LOST SPANISH TREASURE.

The Chest Knob Noster is Hunting Was Found Long Ago at Rocheport.

ROCHEPORT, Mo., July 5.—The hidden treasure for which the people of Knob Noster, Mo., are now hunting, was found in the bluffs east of Rocheport by a stranger, supposed to be a Spaniard, last July. The stranger came to this city, and after wandering along the river bluffs and noting the various paintings on the rocks made by the Indians, began digging at the mouth of a ravine near here. Little attention was paid to his movements and he disappeared as mysteriously as he came. Some days afterwards engineers surveying for the M., K. & E. R. R. came across a pick and shovel and an old iron casket lying near a fresh excavation. The casket had been broken open and showed evidence of having contained valuables.

A company of Spaniards voyaged over the river from Kinkade's fort many years ago. They were massacred by the Indians at Mammoth cave on the north bluff of the Missouri river, two miles below town. The Spaniards were last seen at the old Head fork where Rocheport now stands. They claimed to have left their wagons at Kinkade's landing, now the Boonville ferry landing, having been warned against the Indians on the south side of the river. At the spot where this party is supposed to have been killed after burying their treasure,

A Surgeon's Stupidity.

NEW YORK, July 5.—According to the records of the New York hospital, Wm. Stapleton, the decorator who was knocked down by a Broadway cable car on Friday afternoon, suffered from a simple contusion of the knee. He was examined by Ambulance Surgeon Chamberlain and House Surgeon Sherrill, and permitted to leave the hospital. The next day he was found dead in his room at No. 323 East Twenty-first street. An autopsy revealed the fact that he had a broken neck and five broken ribs.
